Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Google Meet	Team Lead + Team Members	To quickly sync on daily progress, see what everyone is coding today, and make sure nobody is stuck.
2	Progress Update	Weekly	Google Meet	Team Lead + Team Members	Members, let's review the features we completed this week, update our project checklist, and plan our goals for next week.
3	Issue / Bug Discussion	As Needed	Google Meet	Team Lead + Team Members	To jump on a quick call whenever code breaks, fix annoying bugs together, and resolve integration issues immediately.
4	Stakeholder Review	Bi-Weekly	Google Meet	Team Lead + Team Members + External Entities.	To show our working features to external evaluators, get real feedback on our AI platform, and fix any requirements.
5	Final Demo Rehearsal	Once	Google Meet	Team Lead + Team Members	To practice our entire project presentation from start to finish, test the live deployment, and smooth out our pitch.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	No Clear Idea About the Project	Conducted intensive research for two days to finalize the core features.
2	Frontend and AI Integration Chaos:	Discussed with college faculties to standardize data format and APIs.
3	Git Merge Conflicts & Overlapping Code	Enforced strict GitHub feature branches and resolved merge conflicts together.
